

Healthy Practices and Governmental Executive Guidelines

Dancers will be admitted on a voluntary basis. Parents must sign at the bottom of this document stating they have read and agree to follow these guidelines and to hold Ballet Caliente Classical School of Dance harmless should your child become ill. Dancers will bring this signed document with them to rehearsal/class and will **NOT BE ADMITTED** if they fail to do so.

1. Dancers must take their temperature prior to coming into the building and should only attend if temperature is within normal range.
2. Should a dancer or anyone in the dancer's family be unwell, they should not attend.
3. Only dancers will be allowed into the building. Our rehearsal times are staggered to allow for distance during admittance and dismissal as well as disinfecting the studios between groups.
4. Dancers will not use the elevator.
5. Dancers should wear face coverings during admittance and dismissal.
6. Dancers should come to the building wearing dance clothes as the dressing room will not be available for congregation or changing clothes.
7. Dancers are only allowed to use the restrooms in the dressing room and should have face coverings when entering.
8. Dancers shall be cognizant of socially distancing and refrain from close congregation.
9. Dancers must bring their own water bottles. The water fountain is off limits.
10. Please watch the Google Docs video posted on our website with your child. There you will find staff members addressing issues in a manner of which our youngest students can follow and understand including, hygiene, using the restroom, handwashing, sneezing, greeting each other as well as other matters.

Thank you for your adherence to these guidelines.

I have read, understand, and will follow the aforementioned Healthy Practices and Governmental Executive Guidelines. Further, I will hold Ballet Caliente Classical School of Dance harmless should my child become ill.

Dancer's name _____

Dancer's class _____

Parent's signature _____
